

Serializable

```
classDiagram
    class Serializable
    class ActualOctatesVO["com.sterlite.cal.ivr.valueobject.ActualOctatesVO"]
    ActualOctatesVO --|> Serializable
```

The diagram shows a class hierarchy. At the top is a box labeled 'Serializable' with two empty compartments below it. Below this is a larger box for 'ActualOctatesVO' with a package name and a list of methods. A blue arrow with an open triangle head points from the 'ActualOctatesVO' box up to the 'Serializable' box, indicating that 'ActualOctatesVO' inherits from 'Serializable'.

com.sterlite.cal.ivr.valueobject.
ActualOctatesVO

- + Long getTotalOctets()
- + void setTotalOctets
(Long totalOctets)
- + String toString()
